Lunch - Tuesday, April 15, 2008 Dinner - Tuesday, April 15, 2008 Lunch - Wednesday, April 16, 2008

Sign me up for the following Seminar(s):

April 15, 2008

- 2007 OSHA Electrical Standard Updates
- 2008 NEC Changes - General Overview
- 2008 NEC Code Changes In Relation to Power Distribution
- Advanced Sensing Products Hands-On Lab
- Allen-Bradley 2100 IntelliCenter Motor Control Center Overview
- Allen-Bradley Industrial Control Product Update
- An Introduction to Mechanical Pipe Joining Solutions
- EPAct 2005 Review
- FactoryTalk AssetCentre: Disaster Recovery & Document Repository...
- Federal Energy Regulations
- Grounding & Bonding w/CADWELD Certification
- Grounding & Bonding: An Examination of the New Terminology
- High Performance Industrial Coatings
- How Does Your Facility Measure Up Against NFPA 70E?
- Identifying Power Quality Issues and How to Improve Them
- Industrial Hardened Ethernet Switches: What You Need to Know
- Ind. Wireless Solutions for Automation Systems & Plant Networking
- Innovative Solutions to Jobsite Problems and Situations
- Installation Considerations for Low Voltage and Medium Voltage VFDs
- Integrated Architecture: New Features & Products in Controllers...
- Intelligent Motor Control and Drive Safety
- Justifying Energy Efficient Lighting - Made Easy!
- Lighting Control for Sustainable Design
- Outside Plant Products for a Complete Tele/DataComm Solution
- Power and Cooling Across the Enterprise
- PowerFlex Family Overview - How to Select a VFD
- Pump & Mechanical Seal Seminar
- Radio Frequency Identification (RFID) Basics & Applications
- Renewable Energy Metering & Kw Control Management
- Replace Your Hydraulic & Pneumatics with Electric Actuation
- What's New in Machine Safeguarding Solutions

Schaedler Yesco EXPO 2008

April 16, 2008

- A Guide to Video Surveillance
- Advanced Sensing Products Hands-On Lab
- Allen-Bradley 2100 IntelliCenter Motor Control Center Overview
- Allen-Bradley Industrial Control Product Update
- Cable Pulling Safety
- Energy Restructuring in Pennsylvania
- FactoryTalk Historian Site Edition Software: Improve Your Processes...
- General Aerosol & Chemical Safety
- Improve Your Lighting System! Reduce Your Energy Bill!
- Integrated Architecture: New Features & Products in Controllers...
- Intelligent Motor Control and Drive Safety
- Lamp Recycling in Pennsylvania
- Lockout Tagout
- Optimized Ballast Technology for New & Existing Facilities...
- Overcurrent & Overvoltage Protection Changes in the 2008 NEC Code
- PowerFlex Family Overview - How to Select a VFD
- Proven Solutions for Remote Connectivity to Automation Systems
- Radio Frequency Identification (RFID) Basics & Applications
- Signal Reference Grids and High Frequency Grounding
- Steam Systems 101
- Steam Systems Advanced
- Thermal Imaging: The World of Thermography
- Troubleshooting Branch Circuits
- What's New in Machine Safeguarding Solutions

Hands-On Lab Registration is available on-site in hotel lobby one (1) hour prior to lab start time.

Badges and badge holders will be available at the registration booth either day of the show.
